# The Best 18

**Trying to determine the 18 best holes in the Pinehurst area is like picking from an enormous golf buffet. Like choosing All-American teams, it might be easier to pick a best, second-best and third-best 18 holes in the area.**

Golf in and around Pinehurst is more than a game. It's a feeling and it's a way of life. Here is how legendary golf writer Charles Price once described the area he called home for a time: "The village doesn't just fabricate the game with ridiculous courses that look like moonscapes, with hot shot amateurs and hot-dog pros dressed in polyester knickers and Corfam shoes, with cutesy-cutesy street names like Niblick Road or Mashie Lane. To get to a point you only have to make to people who have never been here, Pinehurst is golf.

The game's not just an amenity."

To be in the Pinehurst area is to be part of the game, even for those who don't play. It's that much a part of the place, whether it's golf-themed decor in a fast-food restaurant or catching glimpses of courses while driving past on one of the loblolly-lined streets that weave through this celebrated corner of the North Carolina Sandhills. In that spirit comes this exercise of selecting the 18 best golf holes in this golf-rich region. With so much golf in

the Pinehurst area - there are nearly 40 courses within a 15-mile radius - it's inevitable that discussions ensue about which is the best course, which is the best group of courses and, naturally, which are the best holes. In that sense, golf is no different than comparing favorite restaurants. Some prefer a steakhouse. Others lean toward Italian. Still, others like sushi. Within each of these groups, there are favorite dishes just as there are favorite holes at favorite golf courses.

Let's take a moment to acknowledge that [Pinehurst No. 2](#), created by Donald Ross and recently refreshed by Bill Coore and Ben Crenshaw, exists in a class unto itself but it is not alone in its charm and challenge. With multiple works by Ross and others by some of the game's great designers - Tom Fazio, Jack Nicklaus, Gil Hanse, Rees Jones among them - the Pinehurst area is blessed by grand designs. The task of choosing 18 holes fell to a group of 10 voters with extensive backgrounds in the game and familiarity with the region. The goal was to create a traditional par-72 course - four par-3s, four par-5s and 10 par-4s - chosen from courses both public and private in the area.

Like golf, it is an imperfect process but one built on a foundation of finding holes that challenge and inspire while exemplifying the Pinehurst experience. For those who know the area, the list likely will have them shaking their heads in approval about many of the holes while raising their eyebrows at some others. For prospective visitors to the area, it's a bucket list of sorts. It's no surprise that [Pinehurst No. 2](#) has three holes on the list - the par-5 5th (for decades it was considered one of the great par-4 holes in the world), the par-3 9th and the par-4 18th where Payne Stewart struck one of the most memorable shots and poses in history 21 years ago at the U.S. Open.

[Mid Pines](#), another Ross design recently updated by Kyle Franz, also has three holes on the list - its par-4 4th and 12th holes along with the par-5 15th.

Mid South Club

**Tobacco Road**, one of the most inventive designs by the late Mike Strantz, is represented by its par-5 1st hole and its demanding par-3 14th.

**The Country Club of North Carolina** has one hole from both its Dogwood and Cardinal courses, while **Pinehurst No. 4**, **Pinehurst No. 8**, **Pine Needles**, **Dormie Club**, **Legacy Golf Links**, **Forest Creek North**, **Mid South Club** and **Talamore** each have one hole among the 18.

**Pinehurst No. 2 - 18th Hole, Par 4, 366 yards**: A strong hole that plays uphill from tee to green. It's where Payne Stewart made history and golfers strike their own pose for photographs. Making par on this hole makes the post-round beverage taste even better.

**Pinehurst No. 2 - 9th Hole, Par 3, 148 yards**: The essence of Donald Ross' genius with brilliant bunkering around a two-tiered green that demands precision. Beautifully restored by Bill Coore and Ben Crenshaw.

**Pine Needles - 2nd Hole, Par 4, 438 yards**: This is a testament to simple but outstanding design. After a tee shot to the crest of a hill, the approach is often played from a downhill lie to a green that runs away.

**Country Club of North Carolina (Cardinal) - 15th Hole, Par 5, 521 yards**: This is a classic

risk-reward that gets increasingly more challenging as players approach the green. Bunkers right, water left and a two-tiered green make accuracy critical.

**Pinehurst No. 8 - 14th Hole, Par 4, 363 yards**: The challenge starts at the tee where players must determine how much of the marsh to challenge on this Tom Fazio design. The more aggressive the tee shot, the easier the approach shot.

**Pinehurst No. 2 - 5th Hole, Par 5, 462 yards**: Long considered one of the great par-4s in the world (only 29% of the field hit the green in the 1999 U.S. Open), it has been converted to a par-5 while still featuring one of the most dangerous crowned green complexes anywhere.

**Mid Pines - 15th Hole, Par 5, 478 yards**: Another example of Ross' design ingenuity, this par-5 offers multiple challenges. A good tee shot that avoids fairway bunkers allows longer hitters to reach the green in two.

**Tobacco Road - 14th Hole, Par 3, 178 yards**: Designer Mike Strantz was also an artist when he created a beauty with this short hole that incorporates water, sand and wispy grasses. No wonder players snap photographs of this hole.

**Legacy Golf Links - 18th Hole, Par 4, 432**

**yards**: This finishing hole is nicknamed "The Bear" and not just because Jack Nicklaus designed it with his son, Jack Jr. It's a brute of a finishing hole that doesn't surrender many birdies.

**Pinehurst No. 4 - 6th Hole - Par 3, 184 yards**: Gil Hanse has received enormous praise for his reworking of No. 4 and this hole is a standout. With trouble all around the crowned green, it asks a simple question: Are you good enough?

**Mid Pines - 12th Hole, Par 4, 380 yards**: This is a beautiful example of Sandhills golf. It's not overly long or threatening but it rewards good shots, penalizes misses and forces players to stay below the hole on the sloping green.

**Tobacco Road - 1st Hole, Par 5, 547 yards**: This hole makes a dramatic first impression, requiring a tee shot between two enormous dunes, offering a hint of Strantz's gift for visuals. It only gets more fun from there.

**Dormie - 3rd Hole, Par 4, 298 yards**: Coore and Crenshaw created a classic short par-4 here while making it look like it has been there forever. Playing downhill then up to a knobby green, it's a delight.

**Mid Pines - 4th Hole, Par 4, 330 yards**: Another exceptional short par-4 that

showcases Ross design features. It's about position rather than power. Keeping the ball to the left off the tee and into the green become the challenge.

**Forest Creek North - 17th Hole, Par 4, 361 yards**: The culmination of a three-hole run around a lake in the Fazio-designed course. The tee shot must carry water and avoid a fairway bunker before dealing with a pot bunker in front of the green.

**Country Club of North Carolina (Dogwood) - 13th Hole, Par 3, 166 yards**: Ellis Maples designed many of the favorite courses throughout the Carolinas and CCNC represents his best work. When Kris Spence updated the Dogwood, he enhanced an already demanding hole.

**Mid South - 18th Hole, Par 4, 399 yards**: The finishing hole on this Arnold Palmer design is a serious challenge. It is cut into a hillside, there is water down the right a good tee shot still leaves a difficult approach before getting to the clubhouse.

**Talamore - 18th Hole, Par 4, 400 yards**: This dogleg left has water and a row of bunkers that split the dual fairway. Players must decide how aggressive to be off the tee knowing a bailout leaves a more challenging shot into the green.

# Home of American Golf

**Pinehurst, Southern Pines, Aberdeen ... the names alone evoke the essence of golf. The history, the lore, Donald Ross and the legend that continues to build with each passing year.**

*Article contributed by Brad King*

As it is most of the time, golf is on everyone's mind around the Home of American Golf. But, perhaps even a bit more these days.

Most noteworthy has been the historic news in September 2020 that the [United States Golf Association \(USGA\)](#) will be establishing "[Golf House Pinehurst](#)" — which will include, by the end of 2023, a new equipment-testing facility, innovation hub, and a museum and visitor center. The \$25 million investment includes the construction of two buildings that will house 50 full-time USGA staff members near the clubhouse on the historic [Pinehurst Resort](#) property.

Most exciting for golf fans, the USGA also

announced four additional U.S. Open Championships to be contested on [Pinehurst Resort & Country Club's famed Course No. 2](#) — in 2029, 2035, 2041 and 2047 — joining the previously scheduled 2024 national championship. The historic news means Pinehurst and the Sandhills of North Carolina will serve as the USGA's first anchor site for the U.S. Open.

Meanwhile, [Pine Needles Lodge & Golf Club](#) in Southern Pines is also prepping to host another national championship, this one the [2022 U.S. Women's Open](#). The previous three U.S. Women's Open Championships at Pine Needles were captured by the uber-impressive triumvirate of Annika Sörenstam

(1996), Karrie Webb (2001) and Cristie Kerr (2007). The 2019 U.S. Senior Women's Open at Pine Needles was won by 54-year-old Swede Helen Alfredsson.

In 2021, [The Country Club of North Carolina](#) will play host to another USGA championship event, the [U.S. Junior Amateur](#). This will be the third USGA event contested at CCNC since the club's debut in 1963. CCNC also will become the 16th site to have hosted both the U.S. Junior Amateur and [U.S. Girls' Junior](#). Along with its two previous USGA championships, CCNC played host to the 1972 U.S. Professional Match-Play Championship — won by Jack Nicklaus — seven Southern Amateurs, four Carolinas Amateurs and seven North Carolina Amateurs.

[Southern Pines Golf Club](#), a vintage Donald Ross-designed course dating to the early 1900s, is now under management of the company that owns and operates the [Pine Needles](#) and [Mid Pines](#) resorts nearby. An 18-month course improvement plan is being developed that is expected to include design tweaks from Ross restoration expert Kyle Franz, who has supervised restorations at [Mid Pines](#) (2013) and [Pine Needles](#) (2018), both of which have drawn critical acclaim from wide circles in the golfing community; resurfacing the greens; and rebuilding the bunkers and cart paths.

Franz said he fell in love with the property more than a decade ago when he worked on [Pinehurst No. 2](#). [Southern Pines Golf Club](#) will remain a hub where the Southern Pines community can play golf, swim, or visit the grill for breakfast or lunch. Golf has been played on this site since at least 1906 and newspaper records indicate an 18-hole Ross course was operational by 1923, with a new nine having opened in 1924. The Elks bought the course in 1951 from Mike Sherman, a Connecticut businessman who had owned it since the post-World War II days. Before then, it had been owned and operated by the town of Southern Pines.

Other major renovation work has been done on area courses recently including architect Gil Hanse's facelift of [Pinehurst No. 4](#), along with [The New Course at Talamore Golf Resort](#) and the neighboring [Mid South Club](#).

Mid Pines Inn & Golf Club

When [GOLF Magazine](#) recently released its highly anticipated list of the [Top 100 Courses in the U.S.](#), [Pinehurst Resort](#) was well represented. Images of [No. 2](#) and [No. 4](#) were featured on the cover of the issue, split nationally with No. 2 on half the issues and No. 4 on the other half. No. 2 was ranked 11th overall and second in the Southeast, while No. 4 debuted at 92nd and 15th in Southeast.

Last but not least, [The Cradle at Pinehurst Resort](#) has been an overwhelming smash hit with all golfers, but with the millennial crowd in particular. Golfers can plunk down \$50 and play as many holes as they like on the Hanse-designed, par-3 layout. [The Cradle](#) is now a “must play” at the resort — 789 yards of the most fun you’ll enjoy on a golf course.

Another great area par 3 course that receives very little publicity is the six-hole [Bottlebrush course at Longleaf Golf & Family Club](#). The course features holes ranging from 50 to 100 yards in length. The six greens are small and well contoured, with interesting chipping areas surrounding each putting surface. The actual 18-hole golf course is a fun one to play and is home to the [U.S. Kids Golf Academy](#) and the [U.S. Kids Golf Foundation](#).

[Legacy Golf Links](#) is the only Jack Nicklaus, II design in [Aberdeen](#) and a great challenge with very scenic holes winding through towering pines and strategically placed lakes and ponds.

On the northern end of the destination, [Tobacco Road](#) is a perennial favorite. Designed by noted golf course architect Mike Strantz, this layout is truly unforgettable and a feast for the eyes with some of the most creative golf holes you can imagine.

In 2020, more than ever, golf has served as a physical and mental safe haven for millions of Americans needing to get outside. September saw a 25.5 percent increase in the number of rounds played year-over-year — the fifth straight month to surpass last year’s totals. Equipment sales increased 42 percent year-over-year in the third quarter to just over \$1 billion. It was the industry’s second-best quarter ever.

This boom has been a blessing for the golf industry during a year when many businesses were lucky to tread water, and should help grow the sport beyond the pandemic’s lifespan. [The National Golf Foundation](#) estimates the number of junior golfers could increase by 20 percent (500,000) by year’s end.

All this adds up to good news for the game of golf and the Sandhills in particular. For a list of nearly 40 golf courses in our area, visit the [Home of American Golf®](#) and check out the latest packages and deals.

# US Kids Golf

July 30 - August 1, 2021

Each summer since 2006, thousands of young golfers, ages 5-18, from around the world have descended on the Pinehurst, Southern Pines and Aberdeen area to take part in the [U.S. Kids Golf World Championship](#) and [Teen World Championship](#). The World Championships, which are hosted on 16 different courses in the area, are the world's largest and most prestigious junior golf tournaments.

This year's championship will mark the 22nd anniversary of the World Championship, which first began at Jekyll Island, GA. The World Championships moved to [Pinehurst](#) in 2006 and have grown to include more than 2,200 players. The local economic impact of these events is more than \$9.5 million annually, and the world-wide exposure for the [Home of American Golf®](#) is phenomenal.

In 2015, [U.S. Kids Golf](#) further established roots in the community by purchasing the Longleaf Golf & Country Club, now known as the [Longleaf Golf & Family Club](#). The first [U.S. Kids Golf Academy](#) was opened at Longleaf later that year, where golfers of all ages can learn the game of golf in what U.S. Kids Golf refers to as a "living laboratory." [The U.S. Kids Golf Academy](#) recently opened a state-of-the-art teaching facility for its students to train and to certify junior golf coaches from around the world. The Academy seeks to serve every member of the family. Their programs will benefit players of every age based on proven models of learning, simple and repeatable swing development, use of goal-planning booklets, and most of all, making golf a family endeavor.

"I love it here. Love the course layout...always in pristine condition, a wonderful staff, and a phenomenal practice facility."

"So happy about the lovely changes to the restaurant! It looks amazing! **Heartwood** is a hidden GEM in the Sandhills!"

"We couldn't be happier with enrolling our son at the **U.S. Kids Golf Academy**. I look forward to many years of golf together thanks to this program."

# Accommodations

**Before there was golf in the Sandhills, this area was built on hospitality. North Carolina's friendly locals welcome visitors with open arms.**

From distinguished historic hotels to family-friendly condo rentals to elegant romantic bed and breakfast inns, it's safe to say you'll be spoiled for choice when it comes to selecting your vacation accommodations. One thing our lodging partners have in common is the gracious Sandhills welcome you'll receive upon your arrival. Northern vacationers found the region's rolling hills, towering pines and mild temperatures an agreeable, restorative departure from their wintry homes and North Carolina's friendly locals welcomed them with open arms. Developers like James Walker Tufts and others capitalized on the region's appeal, and one of the country's premier vacation destinations bloomed in an unlikely pocket of North Carolina. Today, that welcoming spirit still prevails. And, thanks to the efforts of visionary developers - both old and

new - visitors have a wide variety of lodging options to choose from in the Pinehurst, Southern Pines, Aberdeen Area. From historic, luxurious resorts to mainstream hotels, the Sandhills has just the place for your stay.

**GOLF RESORTS** - The good, clean air may have first attracted visitors to the Sandhills, but these days there's no denying that golf is the number one draw. If golf is on your itinerary, a resort that pairs accommodations and world-class courses may be your best bet.

**HOTELS/MOTELS** - Mainstream properties often provide most cost-effective options, with all the comfort and amenities visitors have come to expect. Conveniently located throughout the area, local hotels can be found in close proximity to all the region's most popular golf courses and attractions. Amenities like complimentary shuttles, fitness centers, pools and restaurants make a stay at our local hotels a treat.

**CONDOS/VILLAS** - Groups or families may enjoy a fully appointed condo or villa. At two to four bedrooms, these popular options provide space for all your guests. Well-stocked kitchens let you dine in, while common areas spur casual bonding time. Many area golf resorts offer condos or villas, most just a short walk or cart ride from courses. In addition to resort properties, local agencies can find the perfect property in any Sandhills community.

## We Are Pet Friendly!

Dig it! Four-legged travelers receive a warm welcome in Moore County. Situated in Southern Pines on 50 acres of fields, trails and creeks, [Martin Park](#) is an off-leash mecca for pups and owners. See our [Accommodations Chart \(pages 18-19\)](#) for area pet-friendly hotels.

The acclaimed mobile app [BringFido](#) gives you free on-the-go access to pet-friendly accommodations and information worldwide. Find and book a pet-friendly hotel, more easily than ever, at the lowest prices available. ... You can even narrow results to browse hotels that don't charge a pet fee!

**INNS/BED & BREAKFASTS** - Sometimes you want accommodations with a special appeal. A historic bed & breakfast or inn can make for a romantic stay with someone special or just an escape from the normal overnight. Options range from an elegant, 19th century Victorian to an English Country Tudor style home, listed on the National Register of Historic Places. Right in the heart of things, two legendary inns - both more than 100 years old, present eclectic lodging within walking distance from golf, dining and shopping.

Providing a safe and memorable guest experience is one of the most important goals for our resorts and hoteliers today and they will provide a personalized experience that goes above and beyond. No matter which option you choose when planning a stay with us, you won't be disappointed.

# A Foodie Frenzy

**Sure, we have championship golf, equestrian beauty, plenty of the outdoors to explore and all the retail therapy you can imagine, but let's face it: your vacation memories are made around the tables of our local restaurants.**

For the foodie and wine enthusiasts, we have many incredible restaurants offering perfect pairings. The resort area of the [Village of Pinehurst](#) certainly boasts unique and varied dining options that will leave you wondering if you have somehow arrived at an upscale European restaurant. Enjoy the fine crystal and china of [The Carolina Hotel's](#) dining room, the history of [The Pine Crest Inn](#) and the comfortable elegance at [The Tavern](#) at [The Holly Inn](#). Or, in the Village of Pinehurst, [Theo's Taverna](#) features Greek and Mediterranean specialties. [Elliott's on Linden](#) is a few minutes from the Village, but worth the effort to sample an imaginative menu highlighted by their signature cedar plank salmon. Here Chef Mark Elliott embraces the farm-to-table movement with locally-sourced ingredients. If traveling down Midland Road from Pinehurst to Southern Pines, [Ironwood Café](#) is a local favorite with trend-setting American cuisine. Right next door, [Midland Bistro](#) is an awesome choice for a hearty breakfast, or a lovely lunch. Proceeding further down Midland Rd., be sure to enjoy [Heartwood](#) restaurant located inside the clubhouse at [Longleaf](#)

[Golf & Family Club](#) for lunch or dinner. You don't have to be a member.

Ask for recommendations about ideal wine pairings with your entrée at these quality restaurants. In similar fashion, incredible wine is also available in Southern Pines. Visit [The Bell Tree Tavern](#) to enjoy their burgers, [Southern Prime Steakhouse](#) for impeccably aged steaks, including their unique dry-aged strip and ribeye steaks, [Ashten's](#) for a beautiful atmosphere where the majority of their menu is produced with locally-sourced products from farms right here in Moore County, or the internationally inspired menu of [Chef Warren's](#).

Don't let the thought of a more casual dining experience lead you to believe in a decrease in quality. Even our friendliest pubs, small places for a quick bite and most easygoing establishments serve up delicious, fresh, expertly-crafted meals.

Try the [Drum & Quill Cocktails + Kitchen](#), or [Dugan's Pub](#). Or, visit Southern Pines to try the likes of [Wolcott's](#), [Chapman's Food & Spirits](#), or [The Sly Fox](#). For a pint or to tour a brewery, look no further than area favorites like [Southern Pines Brewing Co.](#), [Pinehurst Brewing Company](#), [Southern Pines Growler Company](#) or veteran-owned [Railhouse Brewery](#) in Aberdeen. [Hatchet Brewing Company](#), which opened in November 2019, is the newest craft beer hang out located in Southern Pines.

Whether you're treating yourself on vacation or satiating that ever-present sweet tooth, we have just the treat to meet your needs. Visit [Granny's Donuts](#) and [Southern Angel Donut Co.](#) for amazing dunkers! Create your own trail of tasty treats down the sidewalks of historic Southern Pines as you sample the bites at [C Cups Cupcakery](#) (with a second location in the Village of Pinehurst), [The Ice Cream Parlor](#) or [Broad Street Bakery & Café](#).

Even the most avid golfers (shoppers, adventurers and history buffs, too!) know that it is important to fuel your passion. Here in Moore County, we know that a great meal is more than just fuel for the body; it is an experience of its own. Time to reconnect with friends and family across the table. Time to plan your next round of golf, next shop to visit, next attraction to discover. Time to eat!

[Drum & Quill Cocktails + Kitchen](#) in Pinehurst consistently brings in glowing reviews like this one from a Facebook fan: "With a variety of menu selections from traditional southern specialties to ethnic selections to vegetarian dishes, there's literally something for everyone."

Roll up your sleeves and grab a slice at [Pinehurst Pizza](#), where the decisions extend well beyond the pizzas. The hoagies are hearty and the salads healthy. Try a hidden gem at [Maxie's](#) – this place is literally where the Pinehurst caddies gather after a long day on our legendary courses.

Follow the enticing aromas to Southern Pines and sit down for a culinary delight at [Chapman's Food & Spirits](#). Start your meal with Chappy's Beer Cheese or the "wicked good" Lobsta Fries. But pace yourself to save room for the Bacon Jam Burger or the Shrimp & Artichoke and Spinach Ravioli.

Your dining trail continues to deliver meals to brag about and a stop at [The Sly Fox](#) gastropub in

Southern Pines will have your taste buds believing you are across the pond in Britain. The beer list is wonderfully daunting with plenty of labels to discover. And the menu matches step for step with elevated pub favorites like Shepherd's Pie, Poutine and ground-in-house burgers.

When all that great food has you dozing off, you need a jolt from a great cup of coffee. Good thing [The Roast Office](#) in Pinehurst is serving up both hot and iced brews, as well as fruity concoctions like smoothies and Italian sodas. Round out your order with a breakfast sandwich, quiche, muffin or cookie. Check out their lunch items, too!

[The House of Fish](#) in Aberdeen, the brain child of Chef Danny Hayes, is a full service restaurant that serves fresh, made to order seafood. It is a place where you can truly enjoy great food, great service, and a great atmosphere, at a great price. Just one bite and you will be hooked!

At [Vito's](#), the Girona family stocks a generous wine list to complement the authentic Italian cuisine. Check out Vito's Exclusive Patio Dining Menu, or ask Vito himself about your favorite wine or vineyard. He has insight to share.

Seasonal menus and signature flavors stand out at the [Ironwood Café](#). The chef here calls his sauces a labor of love. Enjoy a fire-enhanced fountain outside, and take in the soothing green of the patio gardens when they're at their peak.

Find European tradition mixed with Southern charm at [The Bakehouse](#) in Aberdeen, a fifth-generation bakery with Austrian and Spanish roots. Gorgeous pastries and specialty cakes, fresh artisan bread and the particularly satisfying Barcelona Burger are worth a taste. For Cuban-American bakery and café offerings, custom cakes and cupcakes, breakfast pastries, breakfast and lunch sandwiches, specialty coffees and Cuban espresso visit [Lynette's Bakery and Café](#) in Aberdeen.

If it's authentic Greek and Mediterranean cuisine you're in the mood for, [Theos Taverna](#) serves the delicacies of decades-old Dalitsouris family recipes, prepared with a special olive oil produced on the family estate in Sparta, Greece. Enjoy dining in the European-style courtyard or by the fireplace arguably the coziest nook in the Village.

For an awesome breakfast or lunch in downtown Southern Pines, it's hard to beat [Betsy's Crepes](#). Betsy has a wide selection of favorites on both menus and you feel like your dining at grandmas house with the down-home vibe.

[Dugan's Pub](#) in the Village of Pinehurst is a mix of a quiet dining room, a busy upstairs pub, where the locals can be found and a downstairs music and dance venue. They offer music Tuesday thru Saturday along with a full menu and they are open 7 days per week.

[Beefeater's](#), a favorite dining destination in the Sandhills for generations, is a locally-owned and family-operated steak and seafood restaurant in the heart of Southern Pines, NC. Voted "Best Steak" in Moore County every year since 1999 the menu offers a variety of dishes to meet the desires of all diners. For a casual dinner or a special occasion, their gracious and experienced staff will help make your evening a success.

Have a hankering for more ethnic food choices? Be sure to try [Thai Orchid](#) or [Mai-Phi](#) for authentic Asian cuisine, or [Maria's Mexican Restaurant](#) for a menu loaded with traditional Mexican flavors.

And you can't forget North Carolina BBQ! The [Pik n Pig](#) (that has been smokin' the best BBQ around Moore County for almost four decades!) is a 'fly-in' restaurant where diners are treated to a meal AND an airshow. Located right beside Gilliam-McConnell Airport, you can fly in for your barbecue dinner or, if you drive, you can sit and watch the planes come in. It doesn't get better than this!

Overall, the dining options in Moore County are as numerous as there are holes of golf to play in [The Home of American Golf®](#)!

# Cocktails

## Craft Cocktails and Bourbon

Crafting a cocktail is much more than mixing a drink. It's a craft that's artistic, flavorful and fresh. Cocktails are popularly enjoyed across the globe and this type of beverage is all about the experience. There can always be something unique: whether it's the palette, the people or the place- and seeking a specialist bar ensures you will get that perfect experience. With vast ingredients and finer details to choose from, there are many elements that 'make' a craft cocktail. Think of this drink like a hand-written letter: simply created and authentically received.

### The History Of A Craft Cocktail

These (traditionally) alcoholic drinks boomed in the 90s, mainly using vodka as its signature liquor. Whilst this remains a staple spirit to lots of the recipes, you'll now find crafted cocktails have evolved to

### Making An Impact With Craft Cocktails

Perhaps on a scorching day, a drink such as a mojito takes your fancy – packed with citrus, muddled with mint and tumbled with ice. Maybe when the winter draws in, a heavier, darker cocktail may be your match: bourbon and cinnamon are typical flavors for the colder months. One of the most noticeable aspects of this beverage is the visual invitation! It is the aesthetic of crafted

cocktails which often entices a consumer to try a new form of the drink- or tempts the senses towards a trusted favorite. Part of the craftsmanship is in creating the 'look' of each eclectic cocktail: colors, chosen glassware, ice cubes and stirrers are a much of the concoction as the liquid itself! Some drinks are topped with salts or fruit flavors, some have fruit slices or sprigs of herb sitting on the surface and some are designed with a stand-out decoration to finish.

### Whiskey Cocktails to Shake Up Your Bar Cart

When it comes to your bar cart, odds are that your vodkas, tequilas, and rums are seeing the most cocktail action while your favorite bottles of Scotch, bourbon, Irish whiskey play the more subdued role, neat or on the rocks. But why shouldn't the world's most popular brown spirit get in on some of the cocktail fun? After all, whiskey comes in lots of variations, and with those come ample opportunities to explore the unique nuances of whiskey through cocktails.

include a generous range of rums, gins, tequila and whiskey formulations (to name a mere few.) The wonderful thing about these beverages is that they can suit every taste bud or open new dynamics. Part of the appeal when indulging in a crafted cocktail is flexibility. A crafted cocktail welcomes you to have your say. Not only this, but every bartender may have a slightly different methodology for perfecting their selection of cocktails. They will be well rehearsed, providing uniqueness in their delivery. There's always a personal touch to your delicious drink.

# Breweries

The emergence of craft beer across the United States began in the 1970s and was mostly confined to larger cities. A half century later there are more than 6,500 microbrews scattered across the country, with many finding popularity in resort areas such as the North Carolina Sandhills.

A decade ago there was no craft presence here, now Pinehurst Resort brews its own beer and three other microbrews have been launched by military veterans. "With four breweries within a 10-minute drive the area is starting to get some traffic as a craft beer destination," says [Railhouse Brewery's](#) Jason Hull. "The craft beer industry is really, really unique from a relationship side, from all of us supporting one another, especially in what has until now been an under-developed craft market," adds [Southern Pines Brewing Co.](#) co-founder Jason Ginos. "It's like a rising tide raises all ships. With more breweries in Moore County it actually helps all of us. The experiences are so different, with each brewery taking on the personality of the employees, the owners, the culture and brewing philosophy." "brewing philosophy."

Local company Welding Wood hand-crafted all the tables, bar and ledges at [Hatchet Brewing](#)

[Co.](#) out of the same tree that had been cured for more than three years. "When you come in it will actually look like you may need a hatchet in your hand to chop up some wood," says Hatchet co-owner Mike Carey. Located close to many shops on Broad Street in Southern Pines, it's within walking distance for everyone. One of the flagship beers is a black IPA called The Void.

[Pinehurst Brewing Co.](#) occupies what was the original Village of Pinehurst steam plant. The steam power plant began operations on December 31, 1895, allowing for The Holly Inn - Pinehurst's first hotel - to provide electricity and steam heat when it opened its doors to its first guests that New Year's Eve. Pinehurst Resort refurbished old fixtures, pipes and gauges for light fixtures and tables. In its first year alone, brew master Eric Mitchell crafted more than three dozen beers. The brewery also features a smokehouse and beer garden.

The first order of the day for a [Railhouse Brewery](#) bartender is placing a cold beer at the Wall of Honor plaque - a tribute to U.S. soldiers who have died in the line of duty. "We have people that travel from all over to come in and see the Wall of Honor and toast a fallen service member and ring the bell. "It's pretty moving" said Railhouse brewer Jason Hull. Railhouse celebrated its 10th anniversary in 2020. Located near the railroad tracks in historic Aberdeen, there are 17 taps that lean more toward darker and malty selections.

With many of its beer names inspired by the Canterbury Tales, [Southern Pines Brewing Co.](#) celebrated its 5th anniversary in 2019. With distribution from Asheville to the Outer Banks, more than 210,000 gallons of beer is crafted here on a yearly basis. With a goal of becoming a regional player across the Southeast, the current location features a tasting room with 10 taps, once of which is a cream ale called Duck Hook.

[Cypress Bend Vineyards](#) in Wagram takes muscadine grapes to new levels in their 16 muscadine table wines. Cypress Bend is unique because the muscadine wines made there are well balanced and finely crafted, crossing the spectrum from dry to semi-dry and sweet to semi-sweet. Cypress Bend offers a tasting room and retail boutique providing a warm, comfortable atmosphere. [Black Rock Winery](#) in Carthage is a small winery offering a wonderful selection of dry to sweet wines - all using locally grown grapes and fruit. Comfortable seating areas provide space where you can enjoy a glass or bottle of wine, including a patio area. The outdoor area has a covered patio as well as an area located next to a waterfall that is perfect for enjoying a glass of wine on a warm afternoon. Located at the foothills of the Uwharrie Mountain Range, and on the Uwharrie Wine Tour, [Little River Vineyards](#) has been in existence since 1999, growing grapes for wineries in North Carolina. The vineyard is approximately 10 acres and yields vinifera and French hybrid grapes. Their wines have gained notable attention and have won several wine competitions in North Carolina as well as nationally.

[James Creek Cider House](#) located in Cameron, makes two brands of award-winning craft hard cider (Stargazer Cider and James Creek Cider House ) in small batches from Southern heirloom apples grown at James Creek Orchards and other family farms in central North Carolina.

## AgriTourism Plays A Vital Role in Moore County

You may wonder what agritourism is all about. Agritourism is the act of visiting a working farm or any agricultural, horticultural, or agribusiness operations for the purpose of enjoyment, education or active involvement in the activities of the farm or operations.

Simply stated, agritourism could be thought of as the crossroads of tourism and agriculture. Stated more technically, agritourism can be defined as a form of commercial enterprise that links agricultural production and/or processing with tourism in order to attract visitors onto a farm, ranch, or other agricultural business for the purposes of entertaining and/or educating the visitors and generating income for the farm, ranch, or business owner.

Regardless of the exact definition or terminology, any definition of agritourism should include the following four factors: combines the essential elements of the tourism and agriculture industries; attracts members of the public to visit agricultural operations; is designed to increase farm income; and provides recreation, entertainment, and/or educational experiences to visitors.

The term "agritourism" is often used interchangeably with "agri-tourism," "agrotourism," "farm tourism," "agricultural tourism," or "agritainment."

*There are 5 reasons why AgriTourism has been established.*

### Creation of enjoyment

Moore County farms create a platform for people to come face to face with nature without necessarily being directly involved in farming and preservation of nature. Visitors enjoy both farming and nature and have an opportunity to appreciate what nature has to offer in terms of their survival and enjoyment. Therefore farms offer a platform for enjoyment of sustainable farming, environment and wildlife in the community environment.

### Source of revenue

Quite often many people engage in farming without aiming at maximizing the income from the farm. Many farmers aim at only maximizing the income through the sale of the products of the farm and do not consider other sources of income. Moore County has introduced a tourism angle to farming with the aim of maximizing income farming activities. The farm has made some few modifications to farming in order to attract visitors to the farm. We know there are many people willing to pay to visit our farms for enjoyment and learning if they are invited. We have created an ideal environment for the visitors to come to local farms.

### Involving the local community

Most Moore County farms are located within a rural community. Moore County has come to appreciate that the success of our farms depends on how we get the local community involved in the activities of these farms. There are so many opportunities of interest to the visitors and our farms can sell their fresh farm produce to the visitors that come to the area.

### Agritourism takes visitors to the rural areas

Our farms are located in a rural area with opportunities and exciting attractions for visitors who come to the area. Pick-your-own, farm stays, holiday events, hay rides, pumpkin picking, corn mazes, etc. Therefore agritourism is a catalyst to community development in our area.

### Build relationships between the agricultural community and tourism

A number of people living in urban areas do not appreciate the role of the agricultural community to the development of the country. Moore County farms have created a platform for creating relationship between the local agricultural community and visitors who come to the farm for enjoyment. The visitors appreciate the importance of the community to their well being.

### Education

We all know the saying that learning does not stop until one completes his or her life journey in the world. Our farms have created an opportunity for visitors to learn how farming, preservation of environment and tourism can be sustainably combined.

## Things To Do All Year Long

[The Home of American Golf®](#) is also home to some of the most fun, diverse and eclectic annual events you'll find anywhere in the Sandhills. Literally dozens of events take place in Moore County every year and on many weekends, the biggest challenge being finding enough time to experience them all!

While our area boasts amazing events, the year 2020 provided many obstacles to experiencing all the fun in a safe and convenient way. Our goal in 2021 is to return to a sense of normalcy where we can gather in larger groups, hug friends and share smiles as bright as a lightning bug's beacon on a sultry Sandhills summer evening.

The newest event in 2021 will be the [Pinehurst Barbecue Festival](#) on Labor Day Weekend, September 3-6. The "Celebration of Taste and Tradition" will offer a unique collection of special events and activities, vendor displays, entertainment and, of course, good 'ol fashioned BBQ! The event will feature the best North Carolina barbecue from "Pitmaster to Plate," highlighting the perpetual battle of Eastern and Western styles. Make plans to attend and purchase tickets at: [www.pinehurstbarbequefestival.com](http://www.pinehurstbarbequefestival.com).

The [Festival D'Avion](#) is a celebration of flight and freedom at the [Moore County Airport](#), located just outside Pinehurst. The five branches of military will be recognized with static aircraft exhibits honoring the men and women who currently serve in the Armed Forces and those who have retired from military service.

Those are just a few examples of annual events, but there are so many more like the [Cameron Antiques Festival](#) and [Carthage Buggy Festival](#), both recognized by Southeast Tourism Society as Top 20 Events in the Southeastern United States.

Agritourism plays a large part in local events as well. Be sure to check out the [Robbins Farmers Day](#), the [Candor Peach Festival](#) and the [Moore County Agricultural Fair](#).

Other events include the [Holly Arts & Crafts Festival](#), the [Sandhills Motoring Festival](#), and monthly events in Pinehurst and Southern Pines respectively, [Live After 5](#) and [First Friday](#). Don't forget about our parades as many towns celebrate St. Patrick's Day, Memorial Day, 4th of July, U.S. Kids Golf, Veteran's Day and Christmas, with elaborate and family-fun events.

The list goes on and on. In 2021, be sure to check our website [HomeofGolf.com/events](http://HomeofGolf.com/events) and our social media channels, as the CVB will be promoting these and many more annual events in advance, so you can be sure these things are happening and plan ahead to attend.

## A 200 Year Old Tradition

Ben Owen Pottery

**Seagrove** is known as the handmade pottery capital of the United States where artisans create handcrafted pottery made in the same rich tradition that began here more than 200 years ago. With nearly 100 shops and galleries scattered throughout the area, you will find everything from traditional tableware to folk and collectible art pieces and historical reproductions.

Seagrove itself is a small community in Randolph County, in the center of the North Carolina Piedmont, but the Seagrove pottery community includes portions of Moore, Montgomery and Lee counties. This area is famous for its hand-thrown pottery and dishware, artfully crafted before the eyes of fascinated spectators and offered for sale at reasonable prices. Typical standout features include salt-glaze stoneware, innovative designs and wood firing in groundhog kilns. The potters in the Seagrove area have a number of kiln openings throughout the year.

Visit [www.discoverseagrove.com](http://www.discoverseagrove.com).

### Seagrove History

The ceramic history of the area begins with the abundant and diverse natural clay deposits found in the vicinity. Native Americans were first to discover this resource and used it for both functional and ceremonial objects. These ancient pieces are among the most important remaining artifacts of early civilization. The first immigrant potters, mostly English and Germans, arrived in the latter half of the 18th century. Most came to our state from Pennsylvania and Virginia. Potters arriving in the Seagrove area in the 1700s were quick to realize the value of the local clay. They first made redware using clay that fired to a reddish orange color. By sometime in the first half of the 19th century, Seagrove area potters had switched predominantly to making the higher fired salt glazed stoneware. The building of the old Plank Road in the mid 19th century, and later the emerging railroad system, gave potters access to even wider markets and helped to establish Seagroves reputation as a pottery town. These pioneer farmer-potters forged new styles based on their skills and artistic visions, their surrounding natural resources, and the needs of their growing community. Today these early Seagrove area pots are gaining international attention as their value changes from that of utilitarian object to cultural treasure.

Few facilities are as inspiring as this historic Mission-style barn tucked in the middle of the oldest continuously operating equine sports complex in the state. Originally designed as an exhibition hall for the Sandhills Fair in 1917, **The Fair Barn** is now the premier public indoor venue in the Sandhills. While respecting its historic significance, the Fair Barn is also equipped with modern amenities such as wireless high-speed internet service, recently renovated dressing rooms, state of the art AV equipment, and a commercial kitchen, making it perfect for meetings, conferences, trade shows, trainings and private parties.

**Sandhills Horticultural Gardens** — In 1978 the gardens became a reality with the establishment of the Ebersole Holly Garden. Over the years, additional gardens have been implemented, including the Rose Garden, Conifer Garden, Sir Walter Raleigh Garden, Hillside Garden, Fruit & Vegetable Garden, and Desmond Native Wetland Trail Garden. Today the gardens located in Pinehurst, cover twenty-seven acres.

# USGA Plants Roots in Pinehurst

Article contributed by Janeen Driscoll, USGA Director - Brand Communications

When the USGA announced plans in September of 2020 to construct **Golf House Pinehurst**, our intentions didn't start and stop at two buildings inside the Village of Pinehurst. It wasn't about the return of a golf event to a storied location, one of many places in the country that we take any of our 14 championships to each year. It wasn't just a vacation spot. We were looking for a place we could call home.

As an organization that recently celebrated its 125th anniversary, it is fair to say we have seen a lot of golf courses.

When we pick one area and one state and make a substantial investment to plant permanent roots, it is a big deal. No other golf community outside of our Liberty Corner (NJ) headquarters and Pinehurst will call the USGA a true neighbor. That decision we made comes with both a promise and a request.

First, the promise: We will be an active part of this community. We are bringing our USGA team of experts here, and have asked them to bring their families and plant their own roots. We will invest in the state and in Pinehurst – starting with bringing our championships here, which will not only bring the best players and fans to the region frequently but will also inspire a global audience to love Pinehurst and North Carolina, too. We will share all the great stories of golf that have existed for centuries through the USGA Golf Museum – the richest repository of golf artifacts found anywhere. Starting in late 2023, every golf ball or golf club made in America will be tested for conformance to the Rules of Golf in Pinehurst, and we will invest in new technology here to fulfill that duty we have for the game. We will also do the incredible work we do to ensure golf's future – through agronomic research, scientific discovery and innovating new products that help both golfers and golf courses connect with the game, right here in this region. We intend to do all this, and more.

Second, the request: Learn about what the USGA does for golf. At our core, we are a non-profit organization, one of a small few among golf's leading organizations that is a dedicated 501c3 association. That means that every dollar we make, including the funds derived from the U.S. Open, must be given back to golf. We have 300 team members who are solely responsible for ensuring that our work – in governing the game, delivering a reliable Handicap Index to any golfer, developing turfgrass that uses less water, helping municipal and public golf courses succeed, preserving Payne Stewart's and Ben Hogan's golf legacy and so much more – directly benefits the game. Your support of our work, of our unique purpose in ensuring golf remains a game for everyone for the next 125 years, is vital to our success and we hope you will join us.

We look forward to welcoming you to Golf House Pinehurst, near the Pinehurst Main Clubhouse, in late 2023 so we can re-introduce you to the USGA. We plan to have a front porch, places for the community to gather and learn, and spaces to explore, to celebrate great moments and make history. Our one goal is for you to love golf, for all that it is and all it can be. We cannot wait to show you more. And we are proud to call The Home of American Golf® our new home.
